

Sloan Stainless Steel Bollard Cover (Flat Top)

ITEM: #SBC-1900-FL SERIES

PRODUCT FEATURES

Modern Design. Maximum Protection.

Sloan's Bollard Covers add a clean, modern look to your boring bollards. Made from corrosion-resistant stainless steel, these covers are designed to require minimal maintenance and resists cracking and fading, unlike paint and traditional bollard finishes. Strong enough to be a bollard on it's own, Sloan's bollard covers deliver maximum protection performance.

- Buy American Compliant Product
- Brushed 304 steel (w/ protective coating)
- Horizontal Grain Finish - #4 Polish
- ASTM A967 Standard (Chemical Passivation)

PRODUCT BENEFITS

Safety. Simplicity. Precision.

Corrosion-Resistant

Constructed from heavy-duty, corrosion-resistant stainless steel to provide long-lasting protection and a professional appearance.

Low Maintenance

Designed to stand up to environmental elements and stay looking like new. Beyond cleaning, little maintenance is required.

American Made

Proudly manufactured in the USA, allowing us to control production quality, making it a trusted choice for a cover that will last.
